## **MISSION**

LIFE CELEBRATION PROJECT is a non-profit organization, whose aim is to develop innovative programs within the fields of art, science, technology and economy.

## **VISION**

The aim of the LIFE CELEBRATION PROJECT is to raise awareness about the connections between people and their natural, cultural and economic environments. Through creative programs LIFE CELEBRATION PROJECT provides a comprehensive and cross-disciplinary approach, uniting various stakeholders to broaden our vision and create opportunities to bring about change in the face of the complexity and fragmentation of today's world.

## **ACTIONS**

[The organization's plan for action is as follows:]

- Supporting cultural, scientific, philanthropic and / or educational projects.
- Organizing multidisciplinary events (artistic events, exhibitions and conferences in the fields of art, science, technology and economy)
- Creating think tanks in the form of exchange networks, workshops and creative residencies in the fields of art, science, technology and economy.
- Developing innovative and convergent strategies between the worlds of economy and culture.
